LA SALLE INSTITUTE.

(CHRISTIAN BROTHERS' ACADEMY.)

FOURTH AND WASHINGTON STREETS, TROY, N. Y

Incorporated under the Regents of the University of the State of New York.

THE object of this Institution is to afford students of all denominations the means o acquiring a thoroughly practical education. It aims at training up Christian gentle men and good citizens, and by its varied course of studies supplies the necessar preparation for the different walks of life.

Every student desiring the HONORS OF GRADUATION is obliged to submit to the Regents examination in the academic branches and obtain the required number of counts.

The HIGHEST ACADEMIC HONORS ever granted by the Regents of the University wer conferred on the classes of '92 and '93.

The course of studies is both thorough and comprehensive, and is best adapted to prepar young men for an honorable and successful career. It embraces four departments—the Aca demic, the Commercial, the Intermediate and the Primary.

Young men graduating from this Institution may enter the Law School or Medical Colleg without further examination.

While the Ancient Classics form the basis of the Academic Department, the students ar carefully instructed in such of the modern languages as the parents select. Great attention however, is given to the acquisition of a thorough knowledge of our own language.

The Commercial Department is organized as a business college, in which Book-keeping Commercial Law, Correspondence in English and foreign languages, Typewriting, Phonography etc., etc., are taught.

To accommodate parents who wish to confide to the Brothers the education of their chil dren at an early age, a Primary Department is open, in which the Brothers take scrupulous care of their young charge.

In each department care is taken that every branch prescribed is carefully studied, and that nothing is learned by rote. With this view, the students discuss the subject-matter of each lesson in class, criticise one another's work, and give free expression to their opinions on class-subjects open to debate. They thus digest what they learn, and acquire thoughtfulness, self-reliance and facility of expression.

Weekly and monthly reports are furnished parents to enable them to note their children's progress.

Classes are opened at 8.30 A. M., and dismissed at 3.30 P. M. An hour and a half is given for dinner.

Arrangements have been made with the railroads, by which a liberal discount in fares is allowed to students residing in Cohoes, Lansingburgh or Waterford.

From this list the location of any number on a street can be easily ascertained; as, for instance, wishing to know at what part of Second street No. 168 comes, look at Second street, on page 14, and find that Liberty street crosses at 156, and Washington street at 178, showing that 168 Second street would come half way between Liberty and Washington streets.

SESSIONS.

The School year is forty weeks or four quarters of ten weeks each. Commencing with the third Wednesday in September, closing with the last Wednesday in June.

The success which has attended the efforts of the trustees of the Seminary to maintain a day school of the first-class in Troy is assured. The patronage of our citizens is generous, and the scholarship and progress of the pupils satisfactory.

The Institution has recently been more completely equipped for instruction in the physical sciences and classes in primary branches have been arranged, which offer unusual advantages for young children.

It is confidently asserted that pupils residing at their own homes in Troy, have at the Seminary, means of advanced education equalled by only a few of the best boarding schools and colleges for young ladies in the country.

The School thus affords to the citizens of Troy unexcelled facilities for the thorough and economical education of their daughters, while surrounded by home influence and parental care.

An investigation of the merits of the school is respectfully invited.

This Company owns the entire water power of the Mohawk River at Cohoes, embracing the celebrated Cohoes Falls. Aggregate fall, one hundred and twenty feet, giving nearly ten thousand horse power. The Company's gate house and dam are among the finest structures of the kind in the United States.

The canals are so constructed as to give a succession of falls from one canal to another, varying in height from twelve to twenty-five feet. The power is leased by the Company, with land for factory building, in perpetuity, at an annual rental of about twenty dollars per horse-power, and considering the quality, is the cheapest in the country. It is an unfailing power; and during the past few years, while most of the water powers in the country have failed for a time, Cohoes has had an abundant supply, without one minute's stoppage. About one-third of this magnificent power is unappropriated, and appurtenant thereto are some of the finest factory sites to be found anywhere.

Cohoes is situated at the confluence of the Mohawk and Hudson Rivers, about four miles from Troy and ten from Albany, and is eligibly located with reference to New York and other markets, and possesses superior advantages for transportation to market, either by river, canal or railroad, having two canals and two railroads running through it. It is a thriving young city of nearly twenty thousand inhabitants, and contains some of the finest cotton and other factories in the United States.
